

LLOYD AND ASSOCIATES CHARGED WITH PLOT FOUND GUILTY BY JURY

**Twenty Members of Communist Labor Party
Must Serve Sentences—Convicted of Plot-
ting to Overthrow Government.**

CHICAGO, Aug. 2.—William Bross Lloyd, millionaire Socialist and nineteen other members of the Communist Labor Party tonight were found guilty by a jury of conspiracy to overthrow the government of the United States.

The defendants were given various sentences, most of them getting from one to five years in the penitentiary, a few being given fines in addition and several were sentenced to one year in jail.

Lloyd got the heaviest sentence being given one to five years in the penitentiary and a fine of \$2,000 in addition.

L. E. Katterfield, Dayton, Kansas, farmer; one to five years in the penitentiary.

Ludwig Lore, alleged co-author of the communist labor party platform and author of alleged radical publications; one to five years in the penitentiary.

L. K. England, Moline, Illinois, member of the Communist labor party state executive committee; one to five years in the penitentiary.

Jack Carney, Duluth, Minn., editor of Truth and member of the party's national executive committee; one to five years in the penitentiary and \$1,000 fine.

Samuel Ash, Chicago, lawyer; one year in jail.

Max Bedacht, San Francisco, Calif., reporter; one to five years in the penitentiary and \$1,000 fine.

Dr. Oscar Jesse Brown, DeKalb, Illinois; one year in jail.

Niels J. Christensen, Chicago; one year in jail.

Edwin Firth, Indianapolis, Ind., printer; one year in jail.

Samuel F. Hankin, Chicago; one year in jail.

Niels Kjar, Chicago; one to five years in the penitentiary.

Charles Krumbein; one year in jail.

Joseph Meisinger, Chicago; one year in jail.

Egar Owens, Moline, Ill.; one to five years in the penitentiary.

Arthur Proctor, Chicago; one to five years in the penitentiary and \$2,000 fine.

Dr. Carl F. Sandberg, Chicago; one year in jail.

Perry H. Shipman, Rock Island, Ill.; one year in jail.

Morris A. Solar, Chicago; one year in jail.

John Vogel, Chicago; one year in jail.

The sentences are for the state penitentiary and the Cook county jail.

The case was given to the jury at 12:45 p. m. to day and the verdict was returned eight hours and forty five minutes later.

During part of the time, however, the jury was not discussing the case but was in recess for meals and rests.

The defendants were charged with conspiracy to advocate the overthrowing of the government by force; conspiracy to publish or distribute printed matter advocating overthrowing of the government by force; conspiracy to belong to an organization advocating it and conspiracy to attend meetings at which the overthrow of the government by force was advocated.

A motion for a new trial was made by the defense and it was decided to hold the hearing on the motion on September 25.

Hoynes Makes Comment.

Maclay Hoynes' state's attorney, in a statement after the verdict, called it a "signal victory for the entire United States."

"In this trial 'red' radicalism was driven into the open," he said, "and it tried to hide its cowardly head behind the clean purposes of honest organized toil."

"One important issue decided by this jury is that the red card is international and not American and that the only card recognized as American is the card of the American workman in the American Federation of Labor. The defendants were indicted under the Illinois law against criminal syndicalism."

CANTU STILL DEFIES PRESENT MEXICAN FEDERAL AUTHORITY

**Governor of Lower
California Prepares

**OPEN REBELLION
NOW IN PROSPECT**

MEXICALI, Lower California, Aug. 2.—(By The Associated Press.)—Envoys of the provisional government of Mexico held a long conference today with Governor Estaan Cantu of Lower California in an effort to compose differences that have caused Cantu to sever relations with the national authorities.

When the conference adjourned those present declined to discuss it, beyond saying the subjects discussed would be referred to Mexico City by telegraph and further instructions awaited.

Governor Cantu was reported to have asked that steps under way for a military invasion be halted until a reply to his proposals could be received, but no intimation was given as to what had been recommended by the government envoys.

Talk of negotiation for peace between the Cantu government of Lower California and the provisional government of Mexico shares interest here today with the preparations of the Cantu government to repel an expected attack from several states. The proposal for a joint debate between the Republican and Democrat nominees is said to have been suggested, but Senator Harding is not expected by his advisers to take part in any such event. Several invitations for a debate have been received but the Harding managers here are not inclined to favor acceptance.

Joseph M. Aguilar, secretary of state, was William L. Park, a Republican member of the railway labor board who told the nominee details of the recent wage award.

With Dr. Newell Dwight Hillis of New York, the senator discussed the possibility of establishing a separate department of health in the federal government and also the movement for higher salaries for school teachers and clergymen.

Senator Harding sent condolences to Mrs. J. Frank Hardy of Indianapolis, learning of the fatal accident to the former Indiana governor.

Millard R. Myers, editor of a co-operative Journal, of Chicago, a caller, expressed satisfaction with the senator's attitude toward the farm and its problems.

**ORDERED TO ESTABLISH
RECONCILING RULES**

Washington, Aug. 2.—Railroads of the country were ordered today by the interstate commerce commission to establish reconciling rules applicable on all freight in open top cars and on coal and coke in all cars to levy additional penalty charges for detention of open top cars and loaded with lumber, coal or coke. The orders are to be made effective upon not less than five days notice.

Only one consignment will be permitted under the order which does not apply on coal originally consigned to lake or tidewater ports for trans-shipment to vessels and reconsigned to other ports or to other consignees.

An additional demurrage charge of \$10 per car is provided for on cars loaded with lumber on all open top cars and on all cars loaded with coal or coke.

**POLISH RETREAT
SLOWED DOWN**

BERLIN, Aug. 2.—The stiffening of Polish resistance is ascribed by the Tagblatt's correspondent to the arrival at the front of the first contingent of the new volunteer forces. The Polish retreat has slowed down on the river Plesna.

A mass of Bolshevik infantry in the vicinity of Lomza is reported to be moving on Warsaw, supported by cavalry. The Poles have obtained some successes south of Brody after hard fighting.

The Polish lines of retreat have become blocked, adds the dispatch causing large quantities of material and many prisoners to fall into enemy hands.

**WILL NOT BE CANDIDATE
FOR SECRETARY OF STATE**

Peoria, Ill., Aug. 2.—Daniel W. Voorhees, Sr., endorsed by the Democratic state conference last Friday for the nomination of secretary of state today announced that he would not be a candidate.

Peoria Democrats have begun urging W. B. Walner, president of the Association of Commerce, for the place.

Panama, Aug. 2.—Dr. B. Porras, candidate for the liberal conservative party, was elected president of the republic of Panama in the election held yesterday. His opponent in the campaign was Dr. Cicerio Aurriola.

Japanese Smuggled Into U. S. Via "Underground System"

TACOMA, Wash., Aug. 2.—Definite location of the underground system on the Pacific coast by which thousands of Japanese are smuggled into the United States yearly was announced today by Congressman Albert Johnson, chairman of the house subcommittee on immigration and naturalization which reassembled here today to investigate Japanese activities in the northwest.

"We have found that the Japanese underground system begins at Yokohama. From thence it leads to Honolulu and across the Pacific to Guaymas on the Gulf of California," he said. "Here either by water, or across the border the Japanese invaders are smuggled into the United States. A perfect system has been established."

"Once the Japanese is smuggled into California he is taken to the bank and his credit established by a substantial deposit."

"Then he hides for five years. At the expiration of this time he can come out of seclusion. If he is questioned as to his residence here he can quickly establish this by taking the authorities to the bank where five years before he made his first deposit. This establishes his bona fide residence of five years as required by statute."

San Francisco, Cal., Aug. 2.—The charge of Representative Albert Johnson, chairman of the house committee on immigration and naturalization today that Japanese associations in Pacific Coast states have assisted in the smuggling of Japanese into the United States was characterized today by K. Kawai, secretary of the Japanese association of America, "as astounding as it is groundless."

Discusses Proposal of Joint Debate Between the Candidates

**LIKES STAND ON
FARM PROBLEMS**

MARION, Ohio, Aug. 2.—Political issues and questions of campaign management were discussed by Senator Harding today at several conferences. Among his callers were Republican leaders from several states. The proposal for a joint debate between the Republican and Democrat nominees is said to have been suggested, but Senator Harding is not expected by his advisers to take part in any such event. Several invitations for a debate have been received but the Harding managers here are not inclined to favor acceptance.

Joseph M. Aguilar, secretary of state, was William L. Park, a Republican member of the railway labor board who told the nominee details of the recent wage award.

**NO INFORMATION ON
PROPOSED CONFERENCE**

Washington, Aug. 2.—Altho still without official information concerning the proposed conference between the Bolshevik and the allies the United States it was learned today most probably will be represented in any conference seeking broadly to solve so important a problem as the fixation of the status of Russia with the world. The state department has no specific invitation and no decision is likely to be announced until further details of the proposed gathering have been made known.

Should the conference, as has been suggested, have as its object the clearing up of the sum total of problems created by Russia's participation in the war in which this country was also a participant, officials take the position that the United States in such a case might very properly be represented.

NEW RAILROAD RATES EFFECTIVE AT AN EARLY DATE

**Application Before
September Means a
Saving for U. S.**

**EXPERTS PREPARING
BLANKET RATE SHEETS**

WASHINGTON, Aug. 2.—(By The Associated Press.)—The new passenger fares will probably become effective August 20 and the advanced freight rates August 25, according to a program outlined tonight, by Alfred P. Thom, general counsel for the association of railroad executives.

The increases in Pullman charges and the new rates on excess baggage and milk also will be put in force August 20.

Railroad rate experts have begun preparation of blanket rate schedules increasing transportation costs on a percentage basis. These will be presented to the interstate commerce commission five days prior to the proposed effective dates. The rate sheets will be supplemented by printed tariffs containing rates for all territories and on all commodities as soon as details can be marked out.

Until this is done local rail officials will compute the new rates and charges for their respective territories on the basis of the existing rates plus the percentage increase authorized. While this method would be unusual railroad officials pointed to the suggestion of the commission that the higher charges be put in force at as early a date as practicable.

Huge Costs For U. S.

By putting the increased rates into effect prior to September 1, the drain on the treasury will be ended before expiration of the government's guarantee of earnings. Officials estimated today that by September the guarantee provisions would have cost the government approximately \$650,000,000 for the six months since the passage of the present railroad law. The government has been obliged to continue the \$75,000,000 monthly rental payment in effect during federal control as well as to meet deficits not caused by the rental amount sustained by the individual carriers.

Included in the charges which will fall on the treasury in these deficits is that portion of the \$60,000,000 wage award covering labor costs from May 1 to September 1. This was officially estimated at \$206,000,000. Thus the American people will pay one third of the increased wages for railroad employees this year in taxes.

With the amount given the carriers this year and the claims of the lines for compensation under their contracts with the railroad administration the roads will have cost the government approximately a billion and a half dollars since the president took over the properties Dec. 28, 1917.

Some Comparative Figures

Operation after September 1, under the new rates will yield, according to experts of the carriers, an annual return of about \$1,580,000,000.

While these figures were preliminary experts believed the freight revenues to be derived under the new charges would amount to \$1,300,000,000 and the income from passenger traffic \$283,000,000. Their estimates it was explained, were based on the assumption that intrastate rates would be increased correspondingly.

The need for increases in intrastate rates was set forth in report forwarded today to various state railway and utility commissions by the three commissioners who sat with the interstate commerce commission during the hearings and consideration of the rate case.

**KEPT ALIVE WITH A
PULMOTOR 24 HOURS**

St. Louis, Mo., Aug. 2.—After having been kept alive with a pulmotor for 24 hours, Robert Stansbury, 16, died at the City hospital this afternoon.

The boy underwent an operation for an ear affection at 3 o'clock yesterday afternoon and while on the operating table stopped breathing. His heart continued to function and a pulmotor was brought into use.

Physicians at the hospital asserted the belief that this was the longest instance in which a pulmotor had been used continuously.

WASHINGTON, Aug. 2.—Railroad rate increases authorized by the interstate commerce commission "should have no appreciable effect on the prices of the vast majority of things which the ordinary consumer purchases," says an analysis of the possible effect of advanced rates tonight by W. Jett Locke, economist for the railroad labor organizations. At the same time he asserted, "there would have been no occasion for so large an advance," if the roads had been better managed, made free of "water" in capitalization, and were "not themselves the victims of profiteers to the extent of \$500,000,000 a year," in purchase of supplies.

NEW YORK, Aug. 2.—England, France, Belgium and every other white nation that has preceded any portion of the African continent, "are to be to be summarily ordered to get out of here," declared Marcus Garvey, president-general of the Universal Negro Improvement association, in an address at Madison Square Garden tonight. It was the opening of the first international convention of the society. Garvey predicted that Asia would soon undertake the bloodiest war of all times to match its strength and civilization against that of Europe and declared he saw in it the opportunity for the negro to strike for his heritage.

Referring to the European war as having been wage to maintain freedom, democracy and justice, Garvey said:

"Because we did not get that, we shall organize 400,000,000 negroes thruout the world and flaunt the banner of democracy on the continent of Africa."

**CHICAGO POSTAL CLERK
TO CONFER WITH WILSON**

Will Also Endeavor to Enlist the Aid of Samuel Gompers of the American Federation of Labor.

Chicago, Aug. 2.—Pierce E. Butler, president of the Chicago Postal Clerks Union and Harry W. Starr, assistant city prosecutor and a former postal clerk, today were enroute to Washington to appeal to President Wilson to provide a court of appeals to act on what the clerks term "unfair treatment and too much departmental authority." They also will endeavor to enlist the aid of Samuel Gompers, president of the American Federation of Labor, and national union officials in their behalf.

The trip is the result of charges of unbecoming conduct, sent from Washington, against ten local clerks who directed a publicity campaign for "higher pay and better working conditions" in the Chicago post office. The men were ordered to show cause why they should not lose their positions.

Threats of a strike of the 1,000 Chicago clerks in the event the men are discharged have been made but no action looking to this step has been taken.

It was stated today that the presidential candidate, Senator Harding and Governor Cox would be asked to declare themselves for a court of appeals for such cases in the future.

The shooting was over a broken engagement.

**NEGRO HANGED IN
COURT HOUSE YARD**

CENTER, Texas, Aug. 2.—A mob of more than one thousand men this afternoon stormed the county jail, battered down the steel door, wrecked the steel cell and took out Life Daniels, a negro charged with the murder of a white woman and hanged him to a limb of a convenient oak tree in the court house yard.

The lynching followed an announcement of a full confession made to the grand jury now in session and also to the district attorney. The wife of a farmer living near Center was brutally attacked and later found unconscious at a lonely point last Thursday night. Her skull was crushed and her body bruised and lacerated. She died Friday.

IT REMAINS TO BE SEEN

Mr. Locke, expert for the railroad labor organizations, says that the consumer should not be called upon to pay any of the freight increases thru higher prices asked for commodities. This may be true of some necessities, but it is certainly not applicable to all.

It's a safe guess too that Mr. Locke will have a hard time proving to the wholesaler and retailer who feel the increase in cost in the management of their business, that these increases are not to be passed on to the consuming public.

SPIRIT OF LABOR SHOWS IMPROVEMENT

The general situation is reflected fairly accurately by the following statements from manufacturers in the oil, printing, clothing and typewriter industries as reported in the Manufacturers News:

"We have noticed a decided improvement in the frame of mind of our labor in the past few weeks. Exactly how this will develop we cannot state at the moment."

"I believe I can sense a sentiment among the men which I am in hopes will lead to greater production."

"Our works superintendents have the feeling that there is a better spirit of loyalty and attention to work in our plants at the present time than existed some months ago. At one of the works the superintendent reports that the improvement is noticeable. We have not, however, figured any improvement in output in per cent, but we are inclined to hope that our works employees are beginning to feel less restless and more disposed to look upon regularity of work and reasonable efficiency as something which should have their consideration."

INSTANT POSTUM

"There's a Reason"

If a poll were taken of all men who have purchased suits from the Jacksonville Tailoring Co., East State St., and their vote registered on the question of how they excel in service, the result would be an overwhelming victory, a landslide, for the following three outstanding features:

Fine Quality
Full Value
Fair Price

These three fundamentals constitute the business creed of The Jacksonville Tailoring company.

Each applies to every article they turn out.

Verify these facts for yourself.

And, listen—

Aside from making especially attractive prices on Porus-cloth and Mohair suits, they are making a special price of \$50, on high grade, medium weight woolen suits.

Here's the best chance of the season to get your cooler weather clothing.

At least go in and examine the woollens they are offering.

"We have not got available figures at hand on the subject, but estimate that labor is about 75 per cent efficient at the present time, with conditions gradually improving."

HIGHER FREIGHTS AND LOWER COSTS

Hale Holden, president of the Burlington, believes that freight increases will eventually lead to lower prices. It is a little difficult for the consumer to understand just how increased costs in one line will lead to a general reduction, but a statement coming from such a source is worthy of consideration. Mr. Holden is no doubt looking at the question in a broad, long way and that the better operation of railroads and the freer movement of traffic will bring about a lesser cost of some commodities.

Meanwhile railroad statisticians are showing that the increased freights should not be made the excuse for increase in prices on various necessities. This statement, will only apply to those necessities in which weight is little taken into account. In wearing apparel, shoes and articles of that class the actual weight is not a large factor in cost. With fuel and some other commodities is an entirely different matter and the increase in freight will have an immediate and direct effect upon the selling price.

"ABSOLUTELY AT ONE"

By becoming "absolutely at one" with President Wilson, Governor Cox has involved himself in some embarrassing entanglements. While he was still in the frame of mind that permitted him to suggest reservations, he proposed that the senate append a clause to the covenant reading thus:

"It will, of course, be understood that in carrying out the purpose of the league, the government of the United States must at all times act in strict harmony with the terms and intent of the United States constitution, which cannot in any way be altered by the treaty-making power."

The language of that reservation commits Mr. Cox to the doctrine that the treaty making power cannot in any way alter the constitution. But Mr. Wilson who constitute only part of the treaty making power entered into an international agreement by which he claims the United States is in honor bound. He claims that since the treaty with the league included, the senate is in honor bound to

ratify, notwithstanding the constitution gives the senate the power and imposes upon it the duty of exercising its free and unimpaired judgment.

Now the conflict of views. Wilson claims that he has the power to override the constitution by his individual act. Mr. Cox is "absolutely at one" with the President. Yet Mr. Cox had previously asserted that the United States constitution cannot "in any way" be altered by the treaty-making power.

U. S. PRESIDENTS AND THE CHURCH

The Springfield Journal says it is a matter of interest to know that the next president of the United States will be connected with a church organization not heretofore represented in the presidency.

Senator Harding is a Baptist. Governor Cox, while he attends the Episcopal church of which his wife is a communicant, is a member of the United Brethren church. Neither of these denominations has yet had a president.

The Episcopal church has been represented by eight presidents: Washington, Madison, Monroe, William Henry Harrison, Tyler, Taylor, Pierce and Arthur. Seven have been Presbyterians—Jackson, Polk, Buchanan, Lincoln, Cleveland, Harrison and Wilson.

Methodists and Unitarians have each had four representatives in the white house. Johnson, Grant, Hayes and McKinley were Methodists. John Adams, John Quincy Adams, Fillmore and T. Jefferson represented the Unitarians. Martin Van Buren and Theodore Roosevelt belonged to the Dutch Reformed church. Garfield belonged to the Church of the Disciples. Jefferson was a Liberal.

It has been characteristic of presidents of the United States that they have been scrupulous in the matter of excluding sectarianism from their consideration of public affairs. No one of them has been accused of using his position to promote the church with which he was affiliated. Each of them has shown that degree of toleration for all religions which was contemplated by the fathers of the republic.

The United States has had chief executives of various degrees of mental capacity and various political beliefs, but it has never elected for president a man who did not have a decent regard for the religious opinions of others. It is due largely to this fact that the United States is the one conspicuous example of success in popular government.

SMOKE OF BATTLE

The smoke of battle now will rise, and for four months obscure the skies. The two great parties now are set to make things hum, already yet. The candidates, good men and true, with ardor and alarm will view, and show catastrophe begins the day the other fellow wins. The roorbacks that our fathers knew will trot around a time or two, with fierce old gags, decayed and weird, and chestnuts of the long gray beard. We who have struck for higher pay and shorter hours and cheaper hay, will now be asked, by statesmen bold, as we've been asked so oft of old, to strike for altars and for fires, and for green graves of our sires. And sounding platitudes will soar around our ears and prove a bore. We view the fuss serenely now; we won't throw bricks in such a row; but in three weeks or maybe six, you'll see us busy throwing bricks, and dodging rocks by others heaved—we'll all be rattled, mad and peeved. And when the smoke has cleared away, the morrow of election day, we'll wonder why we acted thus, and tore our garments in the fuss.

MARKETING CONDITIONS WILL GROW BETTER

W. H. Stevenson Sees Benefits Thru Farmers Organization If Present Plans Are Followed—Land Values In Iowa Continue High.

W. H. Stevenson of the Iowa Agricultural college at Ames is spending a few days at the home of his father, Henry H. Stevenson, on West College avenue. Mr. Stevenson has specialized in agriculture for years past and it is his business to keep closely in touch with all matters relating to farming. He has the advantage of both practical experience and scientific training.

In conversation Mr. Stevenson said: "The present drop in prices is naturally disturbing to grain growers. The marketing of grain is one of the big problems that faces the farmer and I believe that the agricultural associations which now have been formed are approaching this big subject in the right way and that benefits will accrue both to the farmers and the consumers. Of the national agricultural association Mr. Howard is the president and Mr. Coverdale the secretary, and both are Iowa men of large experience, men who are generally interested in the problems that the association is seeking to solve."

Asked about land activity in Iowa, Mr. Stevenson said: "The interest in land there continues and there have been a great many sales in recent weeks at \$250, \$400 and even as high as \$600 per acre. I cannot say that prices are moving steadily upward but there is certainly no downward tendency and there is little slowing up of the activity in land. I sometimes doubt if it is a good thing for the farmer for land prices to be continually pushed forward."

"Referring again to organization of farmers, I want to say the organization to accomplish its real purpose must keep clear of politics. The men most interested are now studying the subject in a rational way and if politics dictated by real economic conditions are followed the results are going to be satisfactory."

Farm Bureau Notes

News From the Wool Pool

The carload of wool shipped from Jacksonville July 2 did not reach the warehouse in Chicago until July 29. It has now been weighed and we are able to tell anyone of the parties who pooled what the receiving weight was. We also received a personal letter from C. R. Crawford, who is representing the I. A. A. at the warehouse stating that he had personally watched the weighing of the wool and it was weighed correctly. In a few cases there was several pounds difference between the loading weight and the receiving weight. The wool has not yet been graded.

"The middleweight states represented have in their pools 25 million pounds of wool. In all state wool pools there is an estimate of 100 million pounds. D. O. Thompson, secretary of the Illinois Agricultural association said the Illinois pool will soon have a million pounds in the Chicago storage house. J. R. Howard stated the American Farm Bureau wool committee will have a meeting in Chicago soon."

Clover Seed.

We are receiving statements from counties north of us that they will have a surplus of clover seed and want to market it thru the Farm Bureau. A price has not yet been established. Speculators in those counties are offering \$12.50 and \$15.00 per bushel for machine run seed. They also report some surplus of alfalfa. The honest to goodness farmers will quite likely receive a higher price for their clover seed than that offered by the speculators.

PUBLIC SALE FARM LANDS

The undersigned trustee will sell on Saturday, August 7, 1920, at 2 p. m. at the Chapin State Bank, Chapin, Ill., for cash, 120 acres farm lands, located about 5 miles southeast of Meredosia, Ill., owned by John Rolfs, deceased, at the time of his death. Dainty Ann Little has splendid role in "Believe Me Xantippe." She is seen as a sheriff's daughter with a long memory who knows how to ride and capture fugitives from justice. In the role of a sheriff's daughter, Miss Little's talents are admirably displayed. She is a charming, courageous, quick-witted girl, who can handle a gun and ride a horse like a man, but for all these qualities her femininity is her chief charm.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Dr. J. C. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. HAPPILY TELLS HER EXPERIENCE TO HELP OTHERS

Hoping Many Will Take Advice Salvation Army Worker Describes Remarkable Benefits Trutona Gave Her

Peoria, Ill. Aug. 2.—A striking example of the humanitarian spirit which characterizes the Salvation Army is to be found in the following endorsement of Trutona by Mrs. Lydia Nolan, a well known Salvation Army worker, who lives in Peoria, at 1000 North Madison street. She says:

"For the past twenty years I had suffered from constipation, liver trouble, and stomach derangement. Then my system became generally broken down, after I had influenza, and with my other troubles it looked like everlasting suffering for me. I'd often be unable to eat, and I would have such severe headaches. The little food I did eat always hurt me."

"If I wrote a pamphlet I could not say enough for Trutona, and what it has done for me. My stomach is in good order now, and my appetite is excellent. But, better still is none of the food ever hurts me any more. My kidneys are much better than I hoped for, and my constipation is a thing of the past. Don't be afraid of Trutona, people for its a wonderful tonic, and you'll be convinced of that fact, I'm sure, if you'll just give it a trial."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorant. It has been declared peerless as a remedy for stomach, liver and bowel troubles.

Trutona is sold in Jacksonville by Coover and Shreve and by Wyle Drug Co., Waverly and Wyle Drug Co., Franklin.

WHOLE FAMILY SICK
"of my six brothers and sister, as well as myself, have suffered since childhood from stomach and liver trouble and bloating. I thought I ran in the family and that I could never be cured, but, thanks to May's Wonderful Remedy, since taking it nearly a year ago I have been enjoying the best of health and feel like a new person. I have no trouble from anything I eat." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv.

PARIS FASHIONS IN FALSE TEETH
Paris, April 2.—We may safely predict for the coming season that styles in artificial teeth will include their being worn snug-fitting and smoothly cushioned in place by means of the dental plate, comfort-powder, Corega, procurable at drug stores and dental dealers.

This antiseptic adhesive powder gives a pleasing sense of security to wearers of false teeth. It allows complete mastification of foods with ease, relaxes facial muscles and prevents sore gums.—Adv.

A WOMAN'S BACK
The Advice of This Jacksonville Woman Is of Certain Value

Many a woman's back has many aches and pains. Ofttimes 'tis the kidneys' fault. That's why Doan's Kidney Pills are so effective. Ask your neighbor.

Many Jacksonville women know this.

Read what one has to say about it:

Mrs. M. J. Scovill, 902 Hackett Ave., Jacksonville, says: "Two years ago I was down with my back and it was a job for me to get through with my housework. I also had blinding dizzy spells and my kidneys acted irregularly. I heard of Doan's Kidney Pills were good, so I tried them. They were long in curing me. Since then I have had no kidney trouble."

Price 60c at all dealers. Don't simply ask for a kidney pill—get Doan's Kidney Pills—the same that Mrs. Scovill had. Foster Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

TASTE TAKEN OUT OF CASTOR OIL BY NEW PROCESS

Remarkable Method Perfected by Laboratory Experts of Spencer Kellogg & Sons, Inc.

When the doctor says "take castor oil" you need no longer shudder. By a new scientific process all the disagreeable features have been removed from this famous old remedy. Chemists of Spencer Kellogg & Sons, Inc., have perfected a remarkable process by which all nauseating taste is eliminated from castor oil. Nothing is removed except the taste. Strength and purity remain the same—a 100 per cent pure castor oil. Kellogg's Tasteless Castor Oil settles the question of the best laxative. No pills or drugs are so prompt and thorough as nature's pure remedy, castor oil. That's why doctors always prescribe it. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c and 65c.—Adv.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

Bluebelle Blue Flame Oil Stoves

Every Vital Feature in the construction of an Oil Stove has been carefully worked out in the Bluebelle. There is nothing complicated to get out of order; nothing hard to understand to operate it properly.

Color Blue except Stove Top which is Black. Beautifully decorated.

Heavy Burners are drawn with Top Flanges down, which throw off the burnt wick particles or food stuffs that might boil over.

Sprockets on a Heavy Stem mounted in a Brass Sprocket Case which is absolutely accurate, insure positive engagement of Perforated Wick Carrier, making stripping or sticking of wick impossible.

Chimneys.—Blended Blue and White Enamel.

Patented High Wick Limits or Fingers are provided on the Inner Combustion Tubes which are engaged by the Wick when turned at full burning height. These fingers automatically trim the Wick when the Chimney is revolved.

Legs Cast Iron, Blue Enameled, making the stove very rigid.

Leak Proof Joints. The Oil Supply Pipe is threaded into a Heavy Cast Iron Oil Bowl and then galvanized hot, making them absolutely oil tight. The Burner Nipples are first threaded into Supply Pipe and then carefully soldered.

The Intense Blue Flame plays right against the cooking utensils, giving quicker results and using less oil than most other stoves.

Tanks.—Flint Glass, One Gallon capacity.

CORN IN ILLINOIS IS AT CRITICAL STAGE

According to Bulletins of the Bureau of Crop Estimates Issued Monday Morning.

Springfield, Ill., Aug. 2.—Corn is at a critical stage in Illinois, according to the bulletin of the Bureau of Crop Estimates, issued this morning. Almost no rain has fallen during the week, due to this fact and the ravages of the chinch bug in central and southern Illinois corn has been deteriorating steadily.

"As threshing of winter wheat proceeds," the bulletin says, "the extent of this damage caused by the Hessian fly and winter killing is reflected by many unusually small yields, especially in the larger wheat growing counties of the south."

"In northern counties the spring wheat is showing rust and scab in some localities. The crop has suffered from lack of rain, as has also the oats crop. Oats are on short straw as a rule but in

most sections heads are well filled.

Early potatoes are a practical failure and the outlook for the late crop is not favorable due to the drought.

"All hay crops and pastures are suffering from lack of rain; and grass hoppers and army worms have done much injury in southern sections. Yields of berries are checked by the drought. Peaches and pears are promising good crops. Sprayed orchards in western Illinois will make unusually large yields of apples and the prospects for the crop are fair in the south."

"The health of all classes of live stock continues to be good. Numbers of animals on feed are much reduced from last year."

Balfour Pink - the Granite Eternal

When you erect a monument you are erecting something to stand not for a year or two but for years and years—then you must get the best. Balfour Pink has stood this test.

"In the year 1766, near what are now the quarries of the Harris Granite Quarries Company, the home of Balfour PINK GRANITE, one Michael Braun built a granite house. Today the house stands intact, the pink granite retaining its true color, and we must marvel even more at the qualities of that granite which have enabled it to withstand the successive seasons of heat and frost without deterioration."

ILLINOIS MINERS ARE RETURNING TO WORK

SPRINGFIELD, Ill., Aug. 2.—Operators and miners' officials both predicted tonight that ninety per cent of the mines in Illinois will be working tomorrow and that Thursday instead of Friday will see a virtual return to normal production.

Reports from all directions reached the headquarters of the Illinois Miners' Union and the operators' association this afternoon telling of local unions voting to obey President Farrington's order, and of mines put into condition for the hoisting of coal tomorrow.

The first of next week, operators predict, will give an unusually large production of coal, as the strike has helped the car shortage situation, and nearly all mines are well supplied with them.

FRANKLIN D. ROOSEVELT TO SPEAK IN CHICAGO

New York, Aug. 2.—Franklin D. Roosevelt, Democratic vice-presidential nominee will open his first campaign tour in Chicago, August 11, two days after his nomination ceremonies at Hyde Park, it was said here tonight. From Chicago he will start for San Francisco making speeches in several cities enroute.

Mr. Roosevelt expects to be away three weeks on his first trip, returning to the east about the first of September. His complete itinerary will be announced tomorrow.

WILL TEST INDUSTRIAL COURT LAW OF KANSAS.

Topeka, Kan., Aug. 2.—Constitutionality of the criminal phases of the Kansas industrial court law will be tested in the supreme court as the result of a decision in the Wyandotte county district court in which Judge R. P. McCamish held as unconstitutional the provision of the law making liable to arrest persons influencing others to quit work. This was announced today by members of the industrial court. The case involved Jerry Scott, a switchman arrested during the strike last April.

WOMEN PARTICIPATE IN OKLAHOMA ELECTION

For First Time in History of State—Other Features Add Special Interest to State Primary Today.

Oklahoma City, Okla., Aug. 2.—Participation of women in an Oklahoma state election for the first time and close races for the principal nominations for U. S. senator are features of the Oklahoma primary tomorrow. There is also a special election in the Eighth Congressional district to fill out the unexpired term of the late representative, Dick T. Morgan.

Senator Thomas P. Gore is a candidate for re-election and he is opposed in the Democratic primaries by Congressman Scott Ferris of the Sixth district. Ferris has made Senator Gore's war record the issue of his campaign. Both the senator and the congressman have covered almost every corner of the state.

Fourteen Republicans are making the race for the Republican senatorial nomination, and in addition there are two independents and one Socialist.

Women vote tomorrow under an amendment to the state constitution passed in November, 1918. Several women candidates have announced themselves. They include one for state senate, one for corporation commissioner, and several for the lower house of the legislature. Party leaders expect a large woman's vote to be polled.

There are three complete tickets in the field—Democratic, Republican and Socialist. In addition, there is a list of independent candidates. It is in this latter column that the ten electors of the recently organized Farmer-Labor party are found. Filing papers will be read out for them by the Oklahoma member of the Committee of 48 and the ten filed the day before the time limit expired. The prohibition party is barred from the field by a state law which provides that a party ticket must poll at least 50 per cent of the votes cast for the leading candidates at the preceding general election or 25 per cent in three other states before being admitted to the ballot.

The roll of candidates seeking the nomination for U. S. Senator is as follows: Democrats—Thomas P. Gore and Scott Ferris; Republicans—Sumner T. Bisbee, Ernest E. Blake, Albert A. Small, E. M. Clark, Cash M. Gade, Ed. Perry, Ben Thompson, P. D. Lindsey, James B. Cullison, N. D. Welty, Henry Powers, Charles I. McGuire, J. W. Herrell, W. T. Clark; Socialists—A. A. Bagwell; Independent—M. R. Turner and Thomas Pratt.

The list of offices for which candidates are to be nominated is as follows: In presidential elections, one U. S. Senator, a congressman in each of the eight districts, twenty-two state senators, or half that body; 92 state representatives, or a full house; three supreme court judges and a vacancy, one member of the criminal court of appeals, one corporation commissioner and the various county officials.

The special re-election in the Eighteenth congressional district has attracted a field of twelve candidates; seven Republicans, four Democrats and one Socialist. Many of these candidates also have filed for the regular term in the district. There are Democratic contests for the nomination in five of the congressional districts, the fourth, fifth, sixth, seventh and eighth, and the Republican contests in the first, second, third, fourth and fifth districts. One Socialist has filed in each district.

KANSAS PRIMARIES TO BE HELD TODAY

Topeka, Kan., August 2.—Gov. Henry J. Allen and U. S. Senator Charles Curtis are candidates for renomination in tomorrow's Kansas primaries. Opposition to Gov. Allen has been voiced by union labor because of the establishment of the Kansas industrial relations court. The single contender in the Republican primaries against the governor is a farm laborer, George B. Snow, who declares his only backing against the governor is his ambition to be governor.

Against Senator Curtis, John A. Edwards, a prominent Greenwood county stockman, has been making an active campaign for Republican endorsement. The Democrats have on a four-cornered contest for the nomination for governor. Those making this race are Jonathan M. Davis, Brinson, W. S. Hyatt, Parsons, Dempster O. Bon Wichita; and O. T. Wood, U. S. marshal of Liberal. Roy Stanton of Mulberry, a coal mining district, is the Socialist nominee.

There is a fight on in five of the eight congressional districts and in practically all of the forty state senatorial and 125 state representative districts. By a new law passed by the last legislature all voters residing in cities are required to register this year. Its purpose is to weed out all voters who have been on the registration books but who are not entitled to vote on account of alien citizenship.

WHISKEY IS WILLED TO BOY IN TRUST

Cleveland, O., Aug. 2.—Sixty barrels of whiskey spell education and a start in life for Sherman Goodfriend, age two years. The whiskey was willed to him in trust by his uncle, Adolph Goodfriend, a former wholesale liquor dealer who died recently. The will asks the whiskey be sold and the money held in trust until the boy is 21 years of age.

Federal authorities say the liquor can be sold legally for medicinal purposes. They figure that there are 3,000 gallons in the sixty barrels. At \$14 a gallon, the price registered druggists pay, it would be worth \$30,000.

MINING VILLAGES NOW "GARDEN SPOTS"

Connellsville, Pa., Aug. 2.—Coke and mining villages of the Connellsville region are becoming veritable "garden spots," according to the committee and judges appointed by the H. C. Frick company which has started its annual inspection of flower beds and vegetable gardens planted by the miners and their families.

The first inspection made at the Phillips mine, showed that 135 gardens had been started, three of which had been carried along until harvest. The value of the crops has been estimated at \$10,000. The next inspection made at the Colonial No. 1 mine, where there were 220 gardens, showed \$14 in high state of cultivation, with a total valuation of \$14,370.

After awarding the prizes at the Colonial, the committee took occasion to praise the miners and their families for the excellent sanitary condition of the little towns and its streets. The plant was declared to have one of the finest baseball parks and stands in Fayette county, while satisfaction was expressed with the progress being made in the construction of the new playground and athletic field.

CAMPAIGN TO OBTAIN INCREASED SALARIES

Detroit, Mich., Aug. 2.—A campaign to obtain increased salaries for the 4,000 supervisory postoffice employees in the country will be launched at annual national convention to be held here for four days, starting Aug. 23.

Declarations that the recent wage increases granted by congress were not adequate have been made by the officers of the national organization, which embraces all those postal workers below the grade of postmaster who hold executive positions. Papers will be read during the convention pertaining to economic and betterment in the postal service. Every state will be represented at the convention. About 300 delegates are expected.

ENGINEERS OF U. S. MEET IN PORTLAND

Portland, Ore., Aug. 2.—Four hundred of the leading engineers of the United States are expected here August 10 for the opening session of the convention of the American Society of Civil Engineers. The convention will occupy three days, part of which time will be given over to sight-seeing trips and other forms of entertainment.

Arthur Powell Davis, chief engineer of the federal reclamation service is president of the society. The sight-seeing trips planned by local engineers include one of the Columbia River highway, considered a remarkable piece of engineering, and trips to nearby water museums, logging camps besides inspections of Portland's terminal facilities and bridges.

HIGH PRICES WORRY FORMER GERMAN RULER

Doorn, Holland.—The former German Emperor William is greatly worried about the low exchange rate of the German mark. Recently, in hope of securing quarters for some of his staff, he has priced a number of houses in the vicinity of Doorn.

BLUNT LAND SOLD.

Judge William E. Thompson returned from Havana Monday evening where he went to attend the sale of the land that belonged to the late Mary J. Blunt. Judge Thompson is the attorney for some of the heirs in their partition suit.

Forty acres of this land is what is known as "ridgeland" and is very sandy. This forty brought \$1,110.

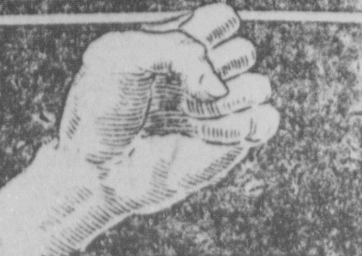

The other one hundred and twenty acres is good land but has no improvements on it. It brought \$2,400 or nearly \$275 per acre, which is considered an excellent price. This tract has been appraised at \$30,200 while the sand forty had been appraised at \$1,900.

Mr. and Mrs. J. H. Hopper of North Prairie street also were present at the sale.

WILL QUIT FARMING

H. M. Cooper, now the Hoppers shoe store, has decided to give up farming and will sell his farm equipment at his farm one mile west of Chambersburg on the Perry road ednesday, August 4. He will go over there today to get ready for the sale.

WHOLESALE PRICE OF BEEF DECLINES IN EAST

Chicago, Aug. 2.—The wholesale price of beef declined throughout the east an average of 10 to 15 per cent between Jun 26 and July 24, the American Institute of Meat Packers announced today.

The decline in the cheaper cuts was greater while the better grades had a less marked reduction, due, the statement says, to a heavy demand for the choice cuts.

THE WELSH GLEE CLUB.

To secure a great combination of blendable voices has been the chief aim of the organizers of the Welsh Glee Singers and Harry Evans, the great basso who is directing the organization, says that that he believes there is no single organization in the old country that can surpass this company in singing ability. The ensemble and solo work are alike of exceptional quality and the unusual personnel makes possible most attractive combinations. In addition to the musical numbers, Mr. Taggart is an acceptable reader.

"The most blendable eight male voices I have heard for many years," says a leading musical critic, in penning appreciation of the Welsh Glee Singers. "And for volume—well, to use a somewhat hackneyed expression, they make the welkin ring."

These singers have been trained in the Welsh Eisteddfods and the light and shading in their phrasing is a delight to those students of music who appreciate quality in musical conception.

JOHN K. LONG SELLS
PRINTING OFFICE

Veteran Printer Retires After Many Years Service—Been Engaged in Work Here Since 1883.

John K. Long yesterday made announcement of the sale of his job printing plant at 213 West Morgan street to Emil Harvey of Chicago. Possession was given August 1st, and the new proprietor is in entire charge of the plant.

Mr. Long retires from active work after many years of service in Jacksonville. He learned his trade in Macomb in 1875. In 1883 he came to Jacksonville and took charge of the job department of the Illinois Courier.

After being with the Courier for thirteen years Mr. Long resigned to take charge of a printing plant established by the firm of Tindale, Brown & Company, J. L. Tindale later took charge of the plant.

It was only for a short time, however, that Mr. Long remained in Mr. Tindale's employ. In 1896 he purchased the plant from Mr. Tindale and for several years operated it in the Opera house block. Later he moved to the Gallagher block and then to the Duncan building. Eight years ago Mr. Long moved to his present location.

During his long business career here Mr. Long has gained an enviable reputation for turning out good work and his clientele covered a wide territory. Mr. Long has no immediate plans for the future. He said yesterday that he intended to take a much needed rest.

His successor has already moved his family to this city. He is a printer of experience and will no doubt meet with success here.

FORMER RESIDENT
DROWNS SUNDAY

Chester Wiles Overcome Sunday While Swimming in Springfield Pond.

Chester Wiles was drowned in the brickyard pond at Springfield Sunday. The deceased was for a number of years a resident of this city, being a son of William Wiles. The family removed to Springfield about six years ago, where the deceased was employed in the Woodside mine. While here Wiles attended the public schools and he is well remembered by a number of local residents.

While swimming in the pond with a number of friends Sunday, Wiles was attacked with cramps and suddenly sank. His friends were unable to rescue him and the police were notified. A pulmotor was secured but the body had been under water for nearly six hours when recovered, and life was extinct.

Mrs. Walter Sperry, 607 North East street and Walter Wiles, living on Doolin avenue, are sister and brother of the deceased. The remains will be brought to this city for interment.

NAVY JAZZ ORCHESTRA
COMING TO CITY

Arthur Oswald, advance man for the navy recruiting "Jazz orchestra" and singers, came to Jacksonville last night. The navy organization will reach the city this afternoon and will appear at Scott's theatre tonight and Thursday night. For months past this organization has been touring the central states aiding in navy recruiting work. The eleven men in this group include comedians and musicians. The program they put on is very much out of the ordinary and the organization has been very successful as an aid in recruiting.

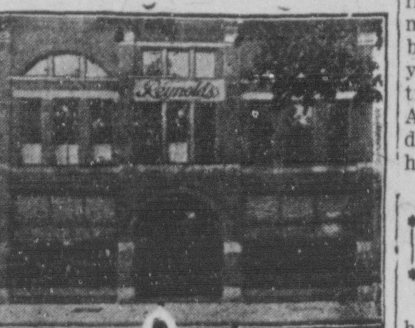

Manager Scott counts himself as fortunate in having secured this navy orchestra as an addition to his program.

MORGAN COUNTY BABY

TO BE AT STATE FAIR
As far as is known Charlotte Cade, three year old daughter of Mr. and Mrs. Benjamin Cade, is the only Morgan county child entered in the Better Babies Conference August 21-27 at the State Fair in Springfield.

Dr. Harrison Harley of the Illinois Psychopathic laboratory of Chicago will give the mental tests to the children at the state conference. He will have two assistants to aid him in the work. The doctor and his two assistants have been assigned to the work by Charles H. Thorne, director of the department of public welfare. The mental tests are given as a part of the examination to which each child entered in the contest is submitted.

Motion pictures are to be a feature of the show this year. Views of the last Baby conference and of the mechanical devices employed by the State Department of Public Health to teach public health lessons will be shown in the motion picture theatre connected with the public exhibit in the Exposition building.

Dr. C. St. Clair Drake, director of the state department of public health wishes to make special mention of the fact that children between the ages of 5 and 10 years may be entered for examination in the non-competitive class. All applications must be in at the department of public health, state house, by midnight, August 12.

With the Sick

Miss Gertrude Bates, of Roodhouse was able to return to her home from Passavant Hospital Sunday.

Miss Alma Mackness has been ill at her home on West College avenue for a number of days but was somewhat better yesterday.

THE CHICAGO

CHILDREN ARRIVE
The children, 48 in number, arrived from the great city last evening. One missed out by some mishap as they should have been 49. The friends from the country were on hand and it was also very gratifying to note the willingness with which they responded to the request to take the little folks.

Rev. A. E. Powell was on hand to receive the Woodson contingent as far as necessary and those from the town were there too and several more children might have been placed at the last moment had it been known in time.

There were eight to go to Concord but Mr. Rexroat was too busy to come the second time so Charles Strawn very kindly agreed to supply a car to take a part of them out but Miss Detrick had a large car and said her friend who was driving, thought they could accommodate the whole crowd. The two young ladies in charge of the car made one think of the old lady who lived in a shoe but all were good natured and went away smiling.

It now looks as if the whole affair would be a success. Several who took children, Friday have reported well pleased and a number have already been buying clothing and supplies for their little guests. One kind lady feared to take more than one Friday but yesterday would have been glad to get another. Now if the proposed picnic for the children at Nichols park can be accomplished it will be a fine thing for the children and their friends.

BOY MECHANICS DOES
REMARKABLE WORK

In the window of Joseph Heintz & Sons on West State street a miniature automobile and truck are on display. They are the work of Harold Black, twelve year old son of Logan Black, and show the remarkable mechanical skill of the young man. The automobile follows the general lines of a Cadillac, is upholstered and equipped with various up-to-date devices. Of course there is no engine in the car, but it is really a marvel of completeness.

The truck is just as well as the car. Harold Black has a well equipped shop at his father's home and altho a mere lad, has for years shown a mechanical turn of mind and has locomotives and automobiles galore, of all sizes and descriptions, in the aforementioned shop.

MOTHERHOOD
WOMAN'S RIGHT

How Lydia E. Pinkham's Vegetable Compound Helps to Make Women Normal.

Washington, Ind.—"I was in such a condition that I never expected to have children, and my aunt advised me to take Lydia E. Pinkham's Vegetable Compound. It improved my health and restored a normal condition of my system so that I now have a fine baby. Until she was about a year old I was very nervous, and all the time thinking something terrible was going to happen. If I heard any one coming, my heart would beat fast and I wanted to run. So I took the Vegetable Compound again and it helped me wonderfully. You may publish my letter, as the medicine is surely great."—Mrs. IVA BANTA, R. R. No. 4, Box 24, Washington, Ind.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

ROY L. SMITH
Roy L. Smith knows life. His lectures spring from vital human contacts.

At fourteen he was a travelling sign painter, before entering college, he had been a mill-hand, a mechanic's helper, a farm-hand and a laborer, at college he paid his way by all sorts of odd jobs, at twenty-one he was preaching in a western town and at twenty-five he was assistant to Dr. Gunauius at Chicago.

Today, as pastor of Chicago's institutional churches, he preaches to great audiences and his daily work takes him into colleges, hospitals, rooming houses and the offices of big business.

He writes extensively for the religious press, is the author of several books on community service and has come into national prominence because of his activity in the field of religious publicity.

His lectures are just life-full of surprises, bubbling over with good humor, touched here and there with pathos. He is humorous because he cannot help it—he sees the fun of living. His style is unique. Action characterizes every moment he is before the audience. He speaks with unusual rapidity and gives the impression that he is a man of boundless energy and enthusiasm.

Mr. Smith made a record on the chautauqua last year as a newcomer who went over the top every time.

Service is Real and Really Part
of Prest-O-Lite

He had just bought a new car, and at the suggestion of the automobile dealer drove over to the Prest-O-Lite Service Station for the "initial test" of his storage battery.

"What does all this much-advertised Prest-O-Lite service amount to?" he asked. "Is it straight stuff, or is it simply a selling argument for batteries?"

"Straight stuff!" echoed the Service Boys. "We'll say it's straight stuff! Prest-O-Lite service is as real as the Prest-O-Lite storage battery, and it is inseparable from it. You have an example of it beginning right now in the initial test, which guarantees that your car will be started out right. We test the battery, check the electrical wiring of the car, and see if the generator charging rate is too high. If the battery is partially discharged on account of the car's standing idle in the showroom, or through delay in transit, we give it a freshening charge and lend you a service battery while we are doing it."

BABE RUTH CRACKED OUT ANOTHER HOMER

Walked Twice, Another Time Hit an Infield Fly and Reached Second, and His Other Time up Knocked a Double.

Chicago, Aug. 2.—Babe Ruth cracked out his thirty eighth home run of the season today and New York shut out Chicago 7 to 0. It was the third circuit drive Ruth had hit off Williams this season. The visitors were in a losing mood and Williams' wildness helped the Yankees. Four of their runs were the result of home runs. Ruth walked twice and another time he hit an infield fly which went so high he reached second. On his other time up he knocked a double. The score:

FEATURE RACE
Toledo, O., Aug. 2.—Peter June, driven by the veteran Edward "Pop" Geers, won the Elks Club 2:09 trot for a purse of \$5,000, the feature race of the opening day of the Grand Circuit meeting this afternoon. Doty Day winner at Columbus last week, captured the 2:18 trot but Kilo Watts showed a burst of speed and nosed the little mare out in the final heat. Tom McMahon, with Drift Patch headed the summary in the 2:06 pace in the straight heats. Symbol S. Forrest had easy sailing in the 2:12 pace and won in straight heats. Favorites came thru in all events for the afternoon.

CHICAGO DEFEATED
PHILADELPHIA 4 TO 2
Cubs Stopped a Ninth Inning Rally After Manager Cravath Had Lined a Two Bagger.

Philadelphia, Aug. 2.—Manager Cravath's two bagger featured today's ninth inning Philadelphia rally which however, fell short, Chicago making it two straight by the core of 4 to 2. The locals bunched four hits in the final inning, but Rixey popped to Terry for the third out with runners on second and third. The score:

BOOTS BY DAWSON GIVES INDEES GAME

Visitors Aviate in Second Inning and Seven Runs are Scored off of Three Hits—Shortstopping of Juell Featured Contest

Dawson presented the Indians with the game Sunday afternoon at South Side park when boots mixed with three hits scored seven runs. That was all the Indians made during the afternoon but it was sufficient to win.

The visitors did not look good when they warmed up and they looked worse in the second inning. However, after that they themselves played excellent ball. The work of Juell was excellent.

C. Boggs was on the rubber for Dawson and pitched an excellent game. Had it not been for poor support in the second Dawson probably would have won the game. After the second when the locals bunched three hits with several errors, Boggs was master of the situation and only allowed four more hits.

For the Indians Hamm pitched a good game. However, Dawson kept right after him and he wavered several times but rallied in time to stave off defeat. He was given excellent support by Grady while the outfield pulled down several long drives.

How the Runs Were Made
The Indians scored all of theirs in the second. After Briggs had fled one to Scott, Clark hit one down over third base that Thompson stopped but could not recover in time to throw out the runner. DeFrates hit to Juell who pegged wild to first and Clark took third and DeFrates second.

Christopher hit to Thompson who threw wild to first and Clark scored. DeFrates taking third and Christopher second. Grady singled, scoring DeFrates and Christopher. Grady took second on the throw to the plate and went to third when Juell fumbled Ham's hit. Hamm stole second and scored with Grady when Denney wheeled. Denney stole third and Wheeler squeezed him over. C. Boggs threw the ball away and Wheeler safe at first. Wheeler stole second, went to third on Ruble's infield out and scored when Scott fumbled Briggs' hit.

Dawson made three in the third. Federham singled but was out at second on C. Briggs' hopper to Ruble. Scott's single sent C. Boggs to second. Both moved up on Thompson's infield out and C. Boggs scored on a wild pitch. Scott taking third. Peddie walked and stole second and scored with Scott on Scattergood's single.

In the ninth Dawson added two more. A. Boggs singled and went to second on Flannigan's single. Federham struck out but Grady

inlined the third one and the base runners moved up a peg. Both scored on C. Boggs' single to center, but ended the run getting.

Daily Market Report

STOCK MARKET FINAL PRICES SHOW LOSSES

NEW YORK Aug. 2.—The stock market today was subjected to severe fluctuations, with final prices showing considerable losses in a large number of speculative favorites. Announcement last Saturday after the close of the market of the rate increases granted the railroads caused a wave of buying at the outset which swept prices upward at a rapid rate. All classes of shares participated with gains ranging from one to 3 1/2 per cent. Short covering was on an urgent character for a time with commission houses reporting a large influx on buying orders from all sections of the country.

Such favorites as New York Central, Union Pacific, Southern Pacific and Illinois Central were in the van with material improvements also in a long list of low priced roads and many specialties. Expectations that the railroads would shortly be in a position to purchase large amounts of needed stock caused active buying of the equipment group. Popular industrials also moved forward.

Lack of any sustained buying power discouraged the bull faction and encouraged the bears who made drives against particular issues in an endeavor to cover stop loss orders. Sales approximated one million shares.

Much stress was laid on the unfavorable character of the foreign news and the fact that call money continued to rule at stiff rates. Persistent heaviness of the principal foreign remittances also had a damaging effect.

Bonds were quoted substantially higher and held up well despite weakness in other quarters. Foreign bonds were sold at concessions and there were moderate reactions in the liberty loans. Total sales of bonds (par value) \$10,160,000.

PRICE OF WHEAT ADVANCED MONDAY

CHICAGO, Aug. 2.—Broader speculative buying, prompted by chances of a reaction from the big decline of late did a good deal today to lift the price of wheat. The closing quotations were unsettled 1 1/2 to 2 1/2c net higher with December \$2.13 1/2 and March \$2.15. Corn gained 2 1/2 to 3 1/2c and oats 5c to 1 1/2c. In provisions there was a setback ranging from 17c to 92c.

It was the first time since trading in future deliveries of wheat had been resumed that well-defined speculative demand showed itself and gave energetic support to values. The market opened weak but absence of any important fresh liquidation made bears cautious, and then opinion appeared to spread that bottom prices had been reached for at least the time being. Estimates of a three billion bushel crop in the United States this season had only a transient effect in checking the bulls.

Corn and oats sympathized with the upturn in wheat and were further strengthened by complaints that dry weather was increasing the likelihood of damage to corn especially in Illinois and Indiana.

HOPPERS' STORE HAS PRACTIPEDIC SERVICE

J. Lloyd Read, of Hoppers' Shoe Store, who recently graduated from the American School of Practipedics of Chicago, is now busily engaged in giving relief from all forms of foot discomfort to the patrons of that store.

The science of practipedics consist of using the most advanced methods of shoe fitting in conjunction with the scientific adapting to individual needs of the corrective devices invented by Dr. Wm. M. Scholl, the well known foot authority. All sorts of foot troubles may thus be overcome and complete foot comfort gained.

This service will be a regular feature of this store from now on. As Mr. Read says: "We will not only fit feet but will make feet fit."

SCHOOL BOARD PLANS CORNER STONE LAYING

Committee Appointed to Arrange for Ceremony—Routine Matters Transacted.

The board of education met in regular session last evening. The dates for the coming school year were named; coal bids accepted; payments on new building ordered; a corner stone laying committee was appointed and various minor matters received attention.

The Proceedings.
The board met in regular session with eleven present excepting Members Caldwell, Muehlhausen and Rapp; President Lippincott in the chair.

The minutes of the last regular and subsequent called meetings were read and approved.

Bills, general fund, \$235.97 and building and repair fund, \$199.54, were ordered paid; also payroll for July, \$521.68.

The buildings and grounds committee reported the men employed working faithfully and the various buildings in good order.

Member Black, chairman of the new high school committee reported a payment of \$22,902.28 due English Brothers, contractors, and it was ordered paid. A payment of \$1,021.70 due on Bernard Gause contract was ordered paid when an administrator or executor was ready to sign a receipt, making the board safe in the payment. A bill for a safe deposit box and for increased insurance on the new building was ordered paid.

Architect Royer had asked regarding the furniture for the new high school building and Superintendent Perrin was instructed to go to Urbana and confer with the gentleman on that subject as it was necessary to know about the furniture so that certain pipes and other material might be properly placed.

The new high school building committee reported the necessity of a change in the sewer pipe contract owing to increased length as the Fayette street sewer was to be used. Member Caldwell was instructed to look after the water pipe. It was reported that the boiler house plans would very soon be ready. It was suggested that a motor to run the ventilating fans would be better than the proposed steam engine.

The president of the board, the secretary and Supt. Perrin were appointed a committee on corner stone laying with power to act and contract the necessary bills of expense.

Supt. Perrin reported the schedule which was adopted.

School to begin, Monday, Sept. 13th.

Holiday vacation, November 25 and 26.

Christmas vacation, December 24, January 3rd.

Semester end, January 21, 18 weeks.

Second semester, begins, January 24.

Spring vacation, April 14-15. Commencement May 27.

One coal bid only was submitted from Harrigan Brothers.

For 6 in lump, \$5.55 per ton. 1½ inch lump, \$5.55.

Six by 1½ egg \$5.55.

Above figures subject to any advance in the price of coal at the mines and increase of freight rates; also if there be a decrease in price of coal at the mine and freight rates the board to get the benefit.

The 6 inch lump bid was accepted.

SALE OF SUMMER DRESSES TODAY, ALL AT LIBERAL REDUCTION—ABOUT 50 CHARMING STYLES IN FOULARDS, TAFFETAS, CHARMUSES, GEORGETTE AND ORGANDY IN LIGHT AND DARK COLORINGS.**F. J. WADDELL & CO.****THE WHEAT MARKET.**

The wheat market continues a matter of concern for farmers. There was a slight improvement in market conditions yesterday but elevator men are not justified in paying more than \$1.90 a bushel. There are prospects that the car supply will improve somewhat this week and farmers are hopeful that the market may react and better prices be offered for the grain.

In the pre-war days even \$1.90 would have been accounted an extremely high price for wheat, but in these times with the increased cost of farming operations the price is not counted satisfactory. Then it seems very low because less than two weeks ago wheat was bringing \$2.50 or better.

F. J. Blackburn of the Blackburn-Houston Grain Co., said yesterday that his firm had received several cars Saturday and Monday and had shipped them out. However, grain previously contracted has been coming in just as rapidly as shipments are made.

Social Events**Meeting.**

The Mary Melton Division of the Woman's Foreign Missionary society of Centenary church met last evening at the home of Mrs. George Fahr, 229 East College avenue.

The devotional exercises were under the direction of Miss Grace Rapp. Miss Clara Ranson had charge of the program the subject of which was "The Native Helpers."

After the program a social hour was enjoyed during which the hostess assisted by Mesdames George Edmond, Elmer Gary, and Phil Henneghan served delicious refreshments.

Family Reunion at Rodems Home.

A number of Mrs. Rodems' brothers and sisters and their families were present Sunday at her home on East State street for a bountiful dinner and social afternoon.

Those present from Springfield were: Mr. and Mrs. Fred Steil, Mr. and Mrs. Mat Steil, Mr. and Mrs. John Steil, sons John, Jr., Edwin and Russell and daughter, Stella Marie, Miss Lizzie Steil, Mr. and Mrs. Paul Steil, daughter Irene and son Paul; Mrs. Henry Brenising and daughter, Carlena, of Fresno, Cal., and Mrs. Anna Gardner of Erie, Pa.

Birthday Celebration at Murrayville Home.

Sunday was the birthday anniversary of Charles and Louis Sooy and the event was celebrated in a fitting manner at the home of Mr. and Mrs. Charles Sooy in Murrayville. At the noon hour a bountiful dinner was served on the spacious lawn of the home, and this was only one of the pleasant features of the day. The afternoon hours were spent in a very happy way and at a late hour all departed with best wishes for the Sooy brothers.

Those present were Mr. and Mrs. C. L. Sooy and sons, Avery and Wyman and daughter Ada of Carlinville; William Haynes of Rosalia, Kans.; Mrs. Roy Sooy and son Edward and daughter Ruth of Edwardsville; Mr. and Mrs. H. G. Lemon and sons Russell and Ralph and Mr. and Mrs. E. R. Sooy and sons, Oliver and Lawrence, all of Nortonville; Miss Laverne Rochester of Roodhouse, and Mr. and Mrs. Elmer Sooy of Manchester; E. P. Sooy and sons Carl and Howard and daughters, Myrtle and Bernice, Mr. and Mrs. Luis Sooy and daughter Lorene, Mr. and Mrs. Charles Sooy, all of Murrayville.

Entertained at Country Home.

Dr. Carl E. Black entertained the members of the building committee of the board of education and the architect of the building at his country home, six miles from Virginia in Cass county, Sunday afternoon. The party motored out and after a big country dinner spent the afternoon discussing the plans of the new high school building and especially the plans for the furniture of the building.

The party consisted of Dr. Carl E. Black, J. P. Lippincott, George S. Rogerson, H. A. Perrin, H. L. Caldwell and T. J. Strong.

Christian Church People

About 400 of the members of the congregation of the Central Christian church gathered late Monday afternoon at Nichols park to celebrate the birthday of their pastor, Rev. M. P. Pontius. The picnic was a surprise for the minister and also for Rev. F. M. Crabtree, whose birthday was yesterday.

The ladies had prepared a bountiful supper which was served in cafeteria style from a long table, everyone received his supper in a short time and then gathering in groups to enjoy the delicious repast.

At the close of the meal A. C. Rice, chairman of the board presided and introduced Mayor Crabtree who made an interesting talk and paid the minister in whose honor the picnic was given a fitting tribute and presented him with a fine large birthday cake and candles. Another cake from H. H. Corbridge of Bluffs was also presented to the pastor.

Rev. M. P. Pontius responded with appropriate remarks, saying how much he appreciated the kindness of the members of his congregation, Rev. F. M. Crabtree was also called on for a talk.

AYERS NATIONAL BANK AWARDED CITY BONDS

Local Firm Presents Better Bid Than Any Offered by City Bond Houses—Other Routine Business Transacted.

The Ayers National Bank outbid all competitors for the \$109,000 worth of bonds offered for sale by the city at the regular meeting Monday evening.

The bid of the Ayers National made thru M. F. Dunlap, president of the institution, was \$103,059.50 with accrued interest and interest at the rate of five per cent on deferred payments. An unusual feature of bids on these bonds is that the price is better than that received by the Board of Education a short time ago on \$210,000 worth of bonds.

This was the main business of the council tho the regular routine business was attended to. Claims and payrolls were ordered paid and officers' reports received and placed on file.

The Proceedings
Roll call showed all aldermen present except Ald. Chapin and Ehrie, Mayor Crabtree presiding. Ald. Ehrie came in during the reading of the bids on the bonds and took his place in the council.

After roll call Mayor Crabtree announced that the reading of the minutes would be temporarily dispensed with and the council would open under the head of new business and open bids for bonds. The bids follow:

Ayers National Bank, \$103,059.50, accrued interest and interest at the rate of 5 per cent on deferred payments.

Harris Bank & Trust company, Chicago, \$102,536.30 accrued interest. Interest at the rate of 3 per cent September and October and 4 per cent in November and December.
